

DHRUV CHAUHAN

Lead Java Developer

📞 7359440661 @ mrdhruvchauhan3@gmail.com 🔗 linkedin.com/in/dhruvchauhan3 📍 Gandhinagar, Gujarat - 382010

SUMMARY

I am an experienced software developer with over three years of experience in a leading IT company. I am well skilled in Java technologies, including Spring, Spring Boot, and Hibernate. My expertise extends to PostgreSQL for robust database management. Known for my problem-solving skills and collaborative approach, I have successfully developed solutions used by numerous live users, consistently driving reliable and innovative software solutions

EXPERIENCE

Senior Software Developer

Tata Consultancy Services

📅 11/2021 - 01/1970 📍 Gandhinagar, India

Leading IT services and consulting company

- Developed and maintained enterprise-level applications using Java, Spring, and Spring Boot, enhancing system functionality and performance
- Utilized Hibernate for effective ORM mapping and PostgreSQL for complex database management and optimization
- Successfully deployed applications with a large user base, ensuring reliability and performance in a live production environment
- Collaborated with cross-functional teams to define requirements, troubleshoot issues, and deliver high-quality software solutions

EDUCATION

Bachelor of Engineering - BE

Government Engineering College, Dahod

📅 07/2017 - 07/2021 📍 Dahod, Gujarat, India

KEY ACHIEVEMENTS

Problem-Solving and Leadership in Deployment

Successfully resolved over 100 critical defects by leveraging strong debugging skills and delivering efficient code-level solutions. Independently developed more than 3 change requests (CRs).

Performance Optimization

Optimized application performance, reducing load time by 30% for large user base.

Legacy Migration Leadership

Led migration of 4-legacy applications to latest tech stack ahead of schedule.

SKILLS

Java	Java Spring	SpringBoot	Hibernate	PostgreSQL	SQL	Postman	PGAdmin	AWS
JBoss	Jenkins	Linux						

PROJECTS

Enterprise Application Development

📅 11/2021 - Present

Involved in critical project modules to enhance client satisfaction and project outcomes

- Worked on various critical modules to fulfill client requirements.
- Debugged complex database procedures and provided desired solutions.
- Interacted with clients for new enhancements and project ideas.
- Conducted interactive sessions and presentations on various topics.
- Successfully developed and deployed more than 4 web application on production.
- Successfully developed and deployed a CR that helped client to grow their business by 30%.
- Independently work on 2+ CR's and successfully deployed them to production.
- Led the migration of legacy Spring applications to a modern, scalable technology stack, improving performance and maintainability.
- Resolved 100+ defects and help to maintain the applications and keep them up and running smoothly.

INTERESTS

Technology Enthusiast

Motivated to explore emerging technologies like AWS/GCP, cloud computing, and AI, and thrive in roles that challenge my skills and support continuous learning.
